

# Ajpallet Series Plastic Pallet

Ajpallet

Sample Drawing

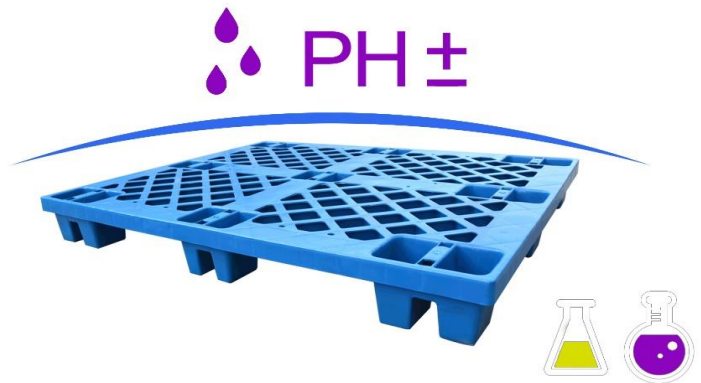

External dimension ( mm )			Length for fork ( L )		Width for fork ( W )		Materials	Dymanic ( T )	Static ( T )	Rack Loading capacity ( T )
L	W	H	L1	L2	W1	W2				
1100	1100	140	330	130	330	130	PP/PE	0.5	1	/
1200	1000	140	310	160	300	120	PP/PE	0.5	1	/

## Applications & Characteristic

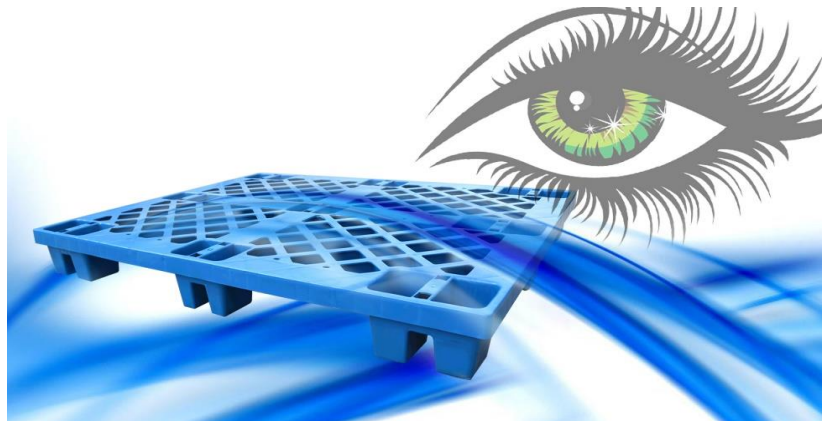

Using the good quality new PP/PE material ,strong and light,shock resistance

Excellent corrosion resistance to various acids and bases

Plastic pallets are safe, hygienic, mothproof and do not need to be repaired

Graceful outline,not easy to become dirty,easy for cleaning and maintenance

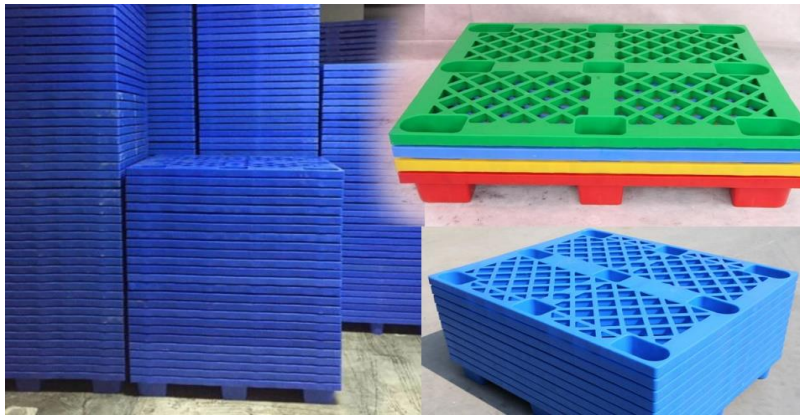

## Applications & Characteristic

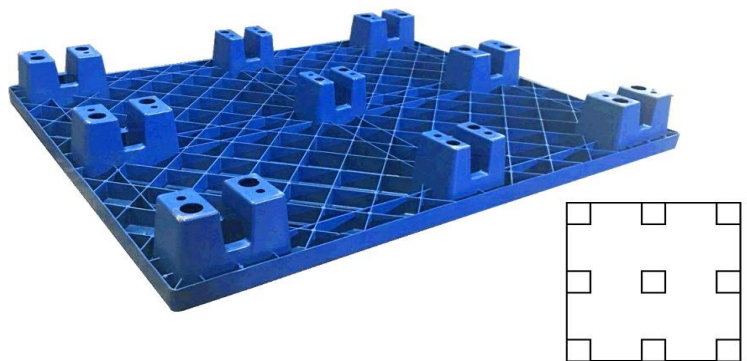

High loading capacity , maximum dynamic load can up to 0.5 ton.

Long service life, and can be recycled

Pallets can be nestable stacked when not in use or during transportation, more saving space than other pallets;

Back nine foot design, more stable

## Applications & Characteristic

4-Way entry design can be used with the pallet truck
